Green Rock

TOG Studios is built around you.

Welcome to TOG Studios - the first fully-flexible,  
all-inclusive content creation studio in central London.  
Designed for today's world of digital-first content.

---

### Our packages

TOG Studios is the perfect place to create amazing content, whatever your level of production expertise.

If you're new to working within a studio environment or know what you need, simply pick the package that matches your idea, add any extras you need (such as the screening room, green rooms or top talent) and we can do the rest.

Need something more bespoke? We help with that too.

### Behind TOG Studios

TOG Studios is a collaboration between Green Rock and The Office Group (TOG). The coming together of London's premier production house and the architects of the modern workplace to create a very different breed of content studios.
